CANINE ORAL MELANOMA

University of Wisconsin – Madison is currently enrolling in a fully funded clinical trial for dogs with oral melanoma.

**PARTICIPATION REQUIREMENTS:**
- Patients will receive the novel investigational product or placebo intravenously every 2 weeks.
- Patients will be required to visit University of Wisconsin – Madison for regularly scheduled appointments over a 6-month time period.
- Owners will be required to document study associated observations as appropriate.

**ELIGIBILITY**
- Dog weighs $\geq$ 3 kg (6.6 lbs).
- Dog has been diagnosed with Stage III* oral melanoma (not confined to lip).
- No prior Oncept® melanoma vaccine
- No lung metastasis.

**FULLY FUNDED STUDY BENEFITS:**
- Study required examinations
- Lab work (CBC, blood chemistry, thyroid level, urinalysis)
- Diagnostics (thoracic radiographs)
- Investigational product (all enrolled dogs may have the option to receive the investigational product in a follow up study)
